DETAILED ACTION

1. This Office Action is response to Applicant's Communications filed on 10/23/2003.
2. Claims 1-40 are pending in this Application.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-16, drawn to representing the item in a data structure, classified in class 707, subclass 100.
 - II. Claims 17-40, drawn to searching and matching a desired terminology, classified in class 707, subclass 6.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions in Group I, and Group II are related as sub-combinations discloses as usable together in a single combination. The sub-combinations are distinct from each other if they are shown to be separately usable. In the instant case, the invention in Group I has separate utility from invention Group II. Group I related to representing a term or item in a data structure, and II related to searching and matching to a desired terminology for a label. (MPEP 806.05(d)).

Art Unit: 2162

5. Because the inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

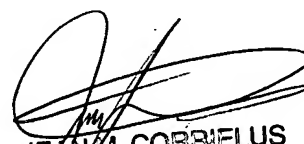

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventor-ship must be amended in compliance with 37 CFR 1.48(b) if one or more of currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amended of inventor-ship must be accompanied by a diligently filed petition under CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
